

Nursing Instructions for Back Slapping (graphic instructions)

背部叩擊護理指導(圖片說明) (英文)

1. Make a dome with palm

2. Before providing back slapping for young children, cushion the abdomen of the patient with mattress and small pillow so that his/her butt is higher than head

3. Method: Gently pat the upward (from the back to the shoulder) for 3-5 minutes

[Contraindicated after meal]

4. Phlegm patter can also be used

[Do not take drinks, ice cream and desserts]
